Form, function and strategy

I help remote companies to design and build products that perform.

EXPERIENCE

Consultancy, Product Design Consultant

2019–Present, Remote

Currently consulting for remote companies, designing SaaS products, creating design systems and helping with the implementation of the front-end components.

Doist, Front-end Developer for Todoist and Twist

2014–2018, Remote

Led implementation for projects launched to millions of users and 15+ languages. Built design systems, product and company sites, blogs, help centers and emailing systems. Authored the HTML/CSS frameworks that powered most sites and all the email system for Todoist and Twist.

Consultancy, Design and Development Consultant

2013–2014, Remote

As an independent consultant, I provided design and development services for agencies, implementing projects for Fortune 500 brands such as Philips or Coca-Cola.

Margenn, Design and Development Consultant

2008–2013, Spain

Cofounded a web design firm where I provided consulting, design and development services for businesses, organizations, startups and agencies.

EDUCATION

UX Engineering

Continuous learning

As an ever-curious mind, committed to continuous learning and improvement, I regularly complete high-quality courses and bootcamps on the intersection of design and technology. Recently, UXER User Experience Immersive and Vue Mastery.

Electronic Engineering BEng

University of the Basque Country

Graduated in 2005 with First Class Honors in final year project, in the field of Web.

EXPERTISE

UX Design

Research. Prototyping. Testing.

UI Design

Design systems. Iconography.

Front-end Development

Scalable CSS. Vanilla JS. WordPress.
